

School Vision

The vision of Pan Asia International School is to present its students with an opportunity to excel both academically and morally and to become responsible balanced future citizens of the global community.

School Mission

The Mission of Pan-Asia International School is to provide its students with the best of modern western educational philosophy without compromising Thai traditions and culture and through cooperation between students, educators, parents and the community.

School Philosophy and Goals

"Our educational philosophy aims at shaping the hearts and minds of our students by promoting a congenial school environment that instills in our students high morals, confidence and a pride in their identity. PAIS strives to present a new outlook in education by providing a nurturing, compassionate and loving environment."

1- A high quality education enhances successful student development.

PAIS

- provides a challenging school environment that includes opportunities for academic, creative, social and physical development
- Celebrates the achievements of students
- Provides effective and comprehensive reporting to students and parents.

2- Every student has the right to be educated in an emotionally supportive and physically safe environment.

PAIS

- Encourages all members of the school to develop and maintain a safe and supportive school environment
- Develops parameters of behavior that promote assertiveness as well as compassion.

3- The educational experience should develop personal and social skills including; creative and critical thinking, self discipline, risk-taking, self confidence, responsibility, adaptability, open-mindedness and the pursuit of excellence.

PAIS

- Develops skills of analysis, problem solving, problem posing and decision making
- Develops the ability to work co-operatively
- Develops the ability to look ahead and set goals for themselves
- Encourages commitment and perseverance
- Encourages students to take a leadership role
- Encourages skills of reflection and self-evaluation to assist personal growth.

4- All students have individual learning needs and potential that needs to be recognized and developed.

PAIS

- Provides equitable and non-discriminatory opportunities in all aspects of the school experience
- Appoints teaching staff who have the skills to identify individual students learning needs, develop individual programs and ensure their implementation
- Provides on-going evaluation of student progress and achievement
- Recognizes and rewards student achievements.

5- It is critical to employ professional, motivated, flexible and ethical staff with appropriate qualifications, from a range of international backgrounds.

PAIS

- Recruits globally
- Utilizes a recruitment process that elicits information concerning professional abilities, motivation, flexibility and ethics of the candidate
- Provides relevant professional development
- Provides administrative and educational support to assist teachers with their classroom duties
- Conducts regular teacher appraisal.

6- Appropriate facilities, technology and teaching resources are vital for delivery of a high quality education.

PAIS

- Regularly assesses and works towards improving the school facilities
- Staff makes use of current technology to keep up to date on teaching strategies and resources
- Provides teaching materials as expediently as possible.

7- Fostering a desire to learn as a life-long activity is necessary for maximizing human potential.

PAIS

- Encourages enthusiasm, curiosity and enjoyment of learning
- Encourages students to value learning
- Encourages commitment and perseverance
- Encourages and assists students to pursue personal interests
- Encourages involvement in a variety of extra-curricular activities.

8- Building confidence, courage, and competence will result in positive contributions to the local and global community.

PAIS

- Develops knowledge, skills, attitudes and values that enable students to participate as active and informed citizens.

9- A balanced curriculum that is internationally recognized is a foundation of the school's program.

PAIS Develops in students:

- Literacy, including reading, writing, listening, speaking, and viewing
- Analysis and problem solving, problem posing and decision- making
- A knowledge of science and technology and their roles in society
- A knowledge and understanding of the social sciences, including history, geography, politics, economics, and culture
- Appreciation, understanding and confidence to participate in the Arts including but not limited to music, drama, visual, arts and performance
- An understanding of and responsibility for personal health and hygiene
- Skills in a variety of sports, physical fitness and sportsmanship
- An ability to communicate in Thailand
- Experiences that foster the development of personal, and ethical values
- A capacity to exercise good judgment in matters of morality, ethics and social justice
- Encourages students to take responsibility for their actions

10- Promoting tolerance and acceptance of cultural and religious diversity is essential.

PAIS

- Develops an understanding of Thai culture
- Develops Thai language skills
- Develops an understanding and delivers instruction in the skills necessary to become a responsible member of the global community
- Develops knowledge and appreciation of each student's home country in a cultural, historical and geographical context
- Develops an awareness of the diversity of cultures and religions.
